Office Action Summary	Application No. 10/557,295	Applicant(s) GIBBS, ALAN TIMOTHY	
	Examiner Daniel V. Venne	Art Unit 3617	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. An amendment submitted by applicant was received on 9/28/2007.
2. Claims 2-4, 9-19, 21, 22, 26, 32, 43, 47 and 49 are amended.
3. Claims 1 and 57 are canceled.
4. Claims 58-60 are listed in the current list of claims and are presumed canceled.

Claim Objections

5. Claims 10, 21, 43 and 47 are objected to due to informalities; the phrase "when the power transmission means transmits power from the prime mover then the transmitted power is transmitted always to the marine propulsion means whether the vehicle is operated in the marine or land mode," should be replaced by -- wherein the transmitted power is continuously transmitted to the marine propulsion means when the power transmission means transmits power from the prime mover during vehicle operation in both the marine mode or land mode, -- or like fashion for clarity purposes.
6. Claims 46-53 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 46-53 depend from claim 1 which has been canceled.
7. Claims 58-60 are objected to as not listed as canceled in the list of claims.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 3617

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 2-14, 16, 17, 19, 20, 22, 26, 28, 29, 32, 36 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Specifically, amended independent claim 10 recites on lines 23-26 the following: "... is also operable by the driver when driving in a second driving position when the vehicle is operated in the marine mode wherein the second driving position is more elevated than the first driving position". This limitation is not adequately addressed or supported by the disclosure.

10. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

11. Claims 10, 21, 43 and 46-53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

12. The term(s) "more elevated" in claim 10 on line 26 are considered relative term(s), which renders the claim indefinite. The term(s) "more elevated" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is unclear to the examiner what is intended and the disclosure provides inadequate clarification for this claim.

Art Unit: 3617

13. Regarding claims 21 and 43, the phrase "may include" renders the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

14. Claim 21 as amended is unclear to the examiner because the claim recites "power transmission means, wherein, the marine and land power transmission means are different", but the claim does not clarify or recite in what way or how the marine and land power transmissions means are different.

15. Claims 46-53 are indefinite since the claims recite dependency on a canceled claim; claim 46 depends from canceled claim 1 and claims 47-53 depend from claim 46.

Conclusion

16. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
